## WE ARE REDEFINING PERSONAL MOBILITY.

**Our aim is** to provide freedom to move in a personal, sustainable and safe way. We do this by putting your needs first – using the best available technology to serve you, inventing new technology where none already exists and combining technologies to deliver new experiences.

At Volvo Cars, we have always put people first. We believe that technology should set us free – not restrain us. The car shall be an enabler of a richer, less complicated life. And as a progressive provider of personal mobility, we want to enable a future of fully connected, fully electrified and self-driving cars.

We are committed to pursuing our visions:

- No one should be seriously injured or killed in a new Volvo car by 2020.
- We want to give back one week of quality time per year through a new Volvo car by 2025.
- Around 50 per cent of the cars we produce and sell will be electric by 2025.

These visions reflect our commitment to protecting what's important to you and the world we share. This is summarized in the Swedish word "Omtanke" which stands for caring and consideration. It also means "to think again", so we collaborate with some of the world's top tech companies to nurture innovations that will take us into a better, more sustainable future.

Our goal is to make your life easier and more enjoyable – and to give back that sense of joy and freedom that the car represents.

## THE EVOLUTION OF THE DYNAMIC SWEDISH SUV EXPERIENCE.

**The Volvo XC60** is the perfect balance between comfort and control. It's the SUV where bold design meets a beautiful interior, where technology is natural and where every drive is a pleasure.

With its dynamic, commanding presence, the XC60 is the SUV with a unique Scandinavian attitude. The exterior mixes muscular dynamism with clean, elegant Scandinavian design. One glance tells you this is a car that's ready for whatever activity or challenge awaits. And the interior is crafted from the finest materials, making sure it's full of natural light and packed with clever touches to make every day easier.

Behind the wheel, you can enjoy technology with a human touch. You're connected, and our most advanced safety technology will help looking out for you, your passengers and other road users.

This is the dynamic Swedish SUV experience. Evolved.

VOLVO XC60

**T6 AWD | R-Design**  
707 Crystal White Pearl | 21" 5-Double open spoke  
Matt Black Diamond Cut alloy wheels

**The Volvo XC60** possesses all the qualities of good Scandinavian design – understated yet confident, uncluttered and beautiful. It is an SUV that projects poise and power. In profile, the bonnet, rising side window line and sharply angled tailgate highlight its dynamic nature. Large wheels and pronounced wheelarches express the car's athleticism and capability.

Up close, the sharp creases and sculpted side panels emphasise its muscular, contemporary character. Full-LED headlights with distinctive T-shaped daytime running lights create an unmistakable impression, day or night, while rear lights that flow into the tailgate are a Volvo design cue that emphasise the car's strength. Everywhere you look there is something to delight. The XC60 is a car that you will always be proud to own, and which you will never tire of looking at.

## PLEASURE FOR YOUR SENSES.

**The XC60 is** built for enjoyment, because we think you should enjoy every drive in your car, no matter how short or long the journey. That's why we crafted the XC60 to be a car that you feel inspired and confident when driving. One where you always feel in control, and where technology is there to support you and make every interaction second nature.

With its strong, lightweight construction and sophisticated suspension components, the chassis of the XC60 allowed us to find just the right balance between comfort and control. To create a car that offers great driver feedback but which leaves you feeling fresh, even after a long journey.

Experience the rewards offered by the dynamic handling in a cabin that provides outstanding comfort and a calm, restful environment. With seats designed to perfectly complement the human form, quiet powertrains and first-class sound systems that let you enjoy your favourite music as the artist intended, the interior of the XC60 is a haven. This is the Volvo approach to driving enjoyment.

## THE COMMAND CENTRE.

**When you sit** in the driver's seat of the XC60 you're in control. In control of everything the car can do for you and in control of your journey, from the driving position to the way you interact with the navigation system.

The experience starts with the driving environment. The dashboard and centre console wrap around, creating the feeling of a cockpit and putting you in command. Beautifully designed and finished controls make every interaction with the XC60 a pleasure.

We put as much thought into materials as we do into design. The Tailored dashboard with contrasting stitching and decor in genuine wood or metal allow the materials to speak for themselves. You're surrounded by the precision of skilled craftsmanship, where everything works with accuracy and precision. In the XC60 it's effortless to be in command.

## YOUR SANCTUARY.

**When designing the** interior of our cars we apply the same principles you would when designing a living room. High-quality materials, intelligent use of space and attention to detail work together to create a warm, inviting environment. And it's for all of your passengers. Everyone who travels in the XC60 gets the same standards of comfort, space, light and design. Everyone will enjoy the journey, no matter where they sit. Welcome to a sanctuary that calms and soothes.

Exceptional seating is at the heart of the experience. We build all of our seats to give the same high standards of comfort and support, with plenty of adjustment so everyone can find a position that suits them.

The design of the interior is as important as the way it's built. Light floods in through the optional panoramic sunroof to make the cabin bright and airy. Reducing the number of buttons and switches creates a distinctly Swedish feel of uncluttered calm. And the clever use of space, such as the storage compartments under the rear seats, is typical Scandinavian ingenuity. They're just the right size to store electronic devices, like a tablet, out of sight.

Unlock the car and the door handles light up to make getting into the XC60 quick and easy. At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The optional lighting package includes ground lighting in all of the doors to illuminate the area below an open door, so you can avoid stepping into puddles, as well as additional interior lighting such as a worklight in the tailgate.

CleanZone technology means the air you breathe inside the car is clean and fresh, regardless of the air quality outside the vehicle. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the XC60 does the rest.

Rich materials and intricate detailing, like the Driftwood trim, and yellow Aramid Fibre speaker cones behind stainless steel speaker panels, provide contrast and visual interest.

**The optional panoramic sunroof** extends the full length of the cabin, flooding the interior with natural light – so everyone gets the benefit.

The combination of clear, easy-to-read instruments and the distinctive lines of the dashboard look great and work beautifully. They exemplify the meeting of form and function.

The way we've reduced the number of buttons has created a clean, uncluttered cabin reminiscent of the traditional, functional design of Swedish homes.

## VERSATILITY'S NEW LOOK.

**A car has** to be more than great design and a rewarding driving experience – the XC60 is versatile, a place which complements and copes with your active life, with extra usefulness built in.

Even getting into the XC60 is easy – you can open the powered tailgate by waving your foot under the rear bumper. Inside you'll find a large, evenly shaped load compartment that makes it easy to accommodate irregular sized objects. Fold the rear seats and you get a fully flat load floor. A loading hatch in the seats means you don't have to fold the seats to carry long objects, so you can still carry passengers. And, to make your XC60 even more useful, add extra equipment from our accessories range, which are designed to complement the car's interior.

## STAY CONNECTED AND IN COMMAND.

**We create technology** to serve you and make life easier. Everything that's complicated or doesn't add to your experience is removed.

You control your Volvo intuitively and easily. And seamlessly connected with the car and the world around you, you're in command of every aspect of your journey.

At the focal point of the cabin, you find a large, 9-inch centre display with touch screen. It's as easy and straightforward to operate as your smartphone, with bold, clear graphics so you can keep your attention on the road. The touch screen blends seamlessly with the car's clean interior design and is easily operated. You can even operate it wearing gloves.

Essential driving information is clearly presented in our 12.3-inch driver display. It adapts to your needs, preferences and surrounding light, so information is always shown on your terms.

For even better control, our optional graphical head-up display projects vital driver information at a comfortable view distance. It looks like the graphics hover in front of the car, which allows you to stay informed without taking your eyes off the road.

Your Volvo also listens to you. Keep both hands on the steering wheel and speak naturally: our voice control will carry out your command to operate climate control, navigation, entertainment and your smartphone.

In a Volvo, you and your car act as one.

#### Sensus Navigation.

Let Sensus Navigation guide you, inform you and help you find the best route. Road directions are clearly shown in the driver display, centre display and optional head-up display. Touch screen controls allow you as well as your passenger to operate the system conveniently and safely. Or talk naturally to your Volvo, and let our voice control carry out your commands while you can keep full attention to traffic. Free life-time map updates ensure your navigation system is always up to date.

## FEEL THE MUSIC.

**Inside the cabin** of your Volvo you can enjoy an audio system designed to put you closer to the music you love, wherever you're seated.

All our audio systems are tailored to the acoustics of your Volvo. Our audio philosophy is very simple: it's all about the soul of music, not the number of speakers or watts. And together with the audio specialists at Bowers & Wilkins and Harman Kardon®, we have created some of the best-sounding audio systems in the class.

Harman Kardon Premium Sound (optional) delivers a beautifully balanced, powerful sound. This immersive experience

is enabled by 14 hi-fi speakers including an air-ventilated subwoofer that produces a bass sound you'll feel in your body.

If you're truly passionate about music, the optional Bowers & Wilkins audio system with a full 1100W output will take the experience to an even higher level. The 15 separate high-end speakers – including a tweeter-on-top centre speaker that minimises acoustic reflection from the windscreen and our unique air-ventilated subwoofer – will surround you with a powerful, pristine sound that feels more spacious and true to life than ever.

It's all about music and making it possible for you to experience it just as it was intended when it was created.

**Harman Kardon® Premium Sound** (optional) is developed together with the hi-fi specialists at Harman Kardon®. Powered by a 600W digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high fidelity surround sound experience. A unique sound processing software – Dirac® Unison Tuning – optimises the response of each individual speaker as well as the speakers all together to ensure they perform in perfect harmony. So wherever, you're seated, you and your passengers can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

**Our Bowers & Wilkins audio system** (optional) integrates seamlessly with the cabin architecture of your Volvo to deliver the most realistic immersive sound possible. Innovative audio processing technology with three room modes allows you to recreate the acoustics of a specific room inside your Volvo, bringing you even closer to the music. And to enable extremely low and undistorted bass tones, the air-ventilated subwoofer uses innovative technology that allows it to pulse large amounts of air, actually turning the cabin into one big woofer.

**Smartphone integration.** Use your smartphone in a smarter way. Via Apple CarPlay™ or Android Auto™, you simply integrate the familiar functions and interface of your smartphone\* with the car's centre display. You can enjoy music, make calls and send messages easily via the car's touch screen, steering wheel buttons or voice control.

\*Supports iPhone® (5 or later) or Android smartphones (5.0 Lollipop or later).

**Intuitively connected.** You operate the audio system and hands-free phone easily using the touch screen controls, steering wheel buttons or voice control. Bluetooth® connection also allows convenient streaming of music via your phone. Within easy reach on the car's touch screen, there's also a Spotify® in-car app that makes finding new music quick and easy without you having to connect your phone.

## **PILOT ASSIST. DESIGNED TO MAKE DRIVING SAFER AND EASIER.**

**Our latest advances** in supportive driving technologies allow you to enjoy smooth, intuitive driving from standstill up to motorway speeds.

To make driving in demanding traffic less stressful, we created Pilot Assist and Adaptive Cruise Control. This means your Volvo automatically helps you maintain a safe distance from the car in front of you by adapting your speed while helping to keep you centred in the lane by automatically making small steering adjustments. This technology also makes driving

in stop-and-go traffic more effortless. Maintaining the set distance, your car follows the car ahead of you and can brake automatically to full stop when needed. And if the car in front just makes a short stop, your car starts following it as it takes off again.

This is driving made safer and easier, with the aim to optimise your control, comfort and convenience.

**Please note:** The driver is always responsible for how the car is controlled, the functions described here are only supportive.

**T6 AWD | R-Design**  
707 Crystal White Pearl

## CITY SAFETY TECHNOLOGY. YOUR PRO-ACTIVE PARTNER ON THE ROAD.

With **advanced pro-active** safety technology we add extra power to your senses and enhance the confident feeling of being in control.

At the heart of our safety technologies is City Safety. By helping you to keep a lookout and brake or steer away if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help you avoid a collision or reduce the impact. And our advanced Oncoming Mitigation by Braking technology – a Volvo safety world first – can detect if there's another vehicle driving towards you and brakes automatically to help mitigate the impact.

Your Volvo can also support if you're forced into a rapid evasive action at speeds between 50 and 100 km/h. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect partner: pro-active when it's needed, and staying discreet in the background the rest of the time.

### Full-LED Active High Beam illumination

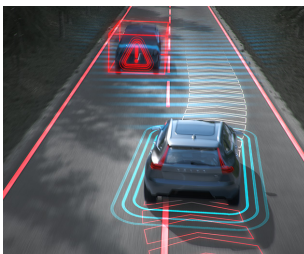

To give you the best view, our Full-LED headlights allow you to drive with high beam on all the time, without dazzling others. It detects road users ahead of you and automatically shades the part of the high beam that would dazzle them.

### Oncoming Mitigation by Braking

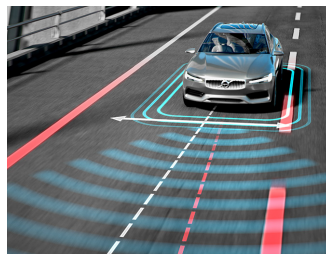

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically and tighten the optional prepared front safety belts in order to help reduce the effect of a collision.

#### Oncoming Lane Mitigation

Using automatic steering assistance, this system helps you avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car steers back.

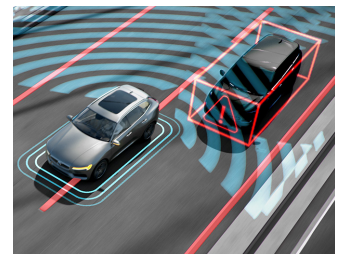

#### Lane Keeping Aid

If you're about to cross a lane marking unintentionally, the Lane Keeping Aid will gently steer your car back into its lane. If this is not enough or you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

#### Run-off road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off road Mitigation detects you're about to leave the road unintentionally, it uses steering input and, if necessary, brake support to guide you back on track.

#### BLIS™ with Steer Assist

BLIS™ alerts you when a vehicle enters your blind spot or approaches fast from behind. If you nonetheless drift into the path of another vehicle, BLIS™ can gently steer you back into your lane.

## PERFECT PARKING, EVERY TIME.

**In a Volvo,** you can enjoy smooth parking.

When parking, you're supported by front and rear park assist functions that alert you if there are obstacles in your way. And by adding our 360° camera, you get a detailed bird's eye view of the area surrounding your Volvo – a great help when you reverse or manoeuvre in confined areas with impaired visibility.

If you want, our Park Assist Pilot can help park the car for you. It measures the parking space, and if the space is at least 1.2 times the length of your car it can park by taking over the steering – you just control the brakes and gears. Park Assist Pilot handles both parallel and perpendicular parking, and can also assist when leaving a tight parallel parking space.

And to make it easier when you reverse out of a parking space, Cross Traffic Alert with Autobrake helps you keep a lookout on approaching vehicles in your blind sectors. It can even brake for you if it detects an imminent collision.

### 360° camera

The 360° camera uses images from discreetly mounted cameras to create a bird's eye view of your car and its closest surroundings. In the centre display, you can see obstacles all around you, which makes it easier to park and manoeuvre in tight spaces.

## DESIGNED TO PROTECT.

**Protecting you and** your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you and your passengers in a collision. Everything, from the design of the seats to the surrounding safety cage and the safety belts and airbags, works together to help minimise the strain on all occupants and maximise protection.

The front seats not only provide world-class comfort. They are also designed to protect you in the event of an impact. Our

unique whiplash injury protection helps protect your back and neck if your car is hit from behind. And in a Run-off road scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The optional prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

### Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb a vertical impact, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

### Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

## ENJOYING MORE, USING LESS.

**With the perfect** balance between performance and efficiency, every Volvo powertrain gives you a great drive with low fuel consumption and reduced emissions. The combination of lightweight, low-friction engine design and advanced boosting technology allows you to enjoy outstanding performance and a smooth, agile driving experience. Reduced size and weight also frees up interior space and contributes to the car's dynamic handling.

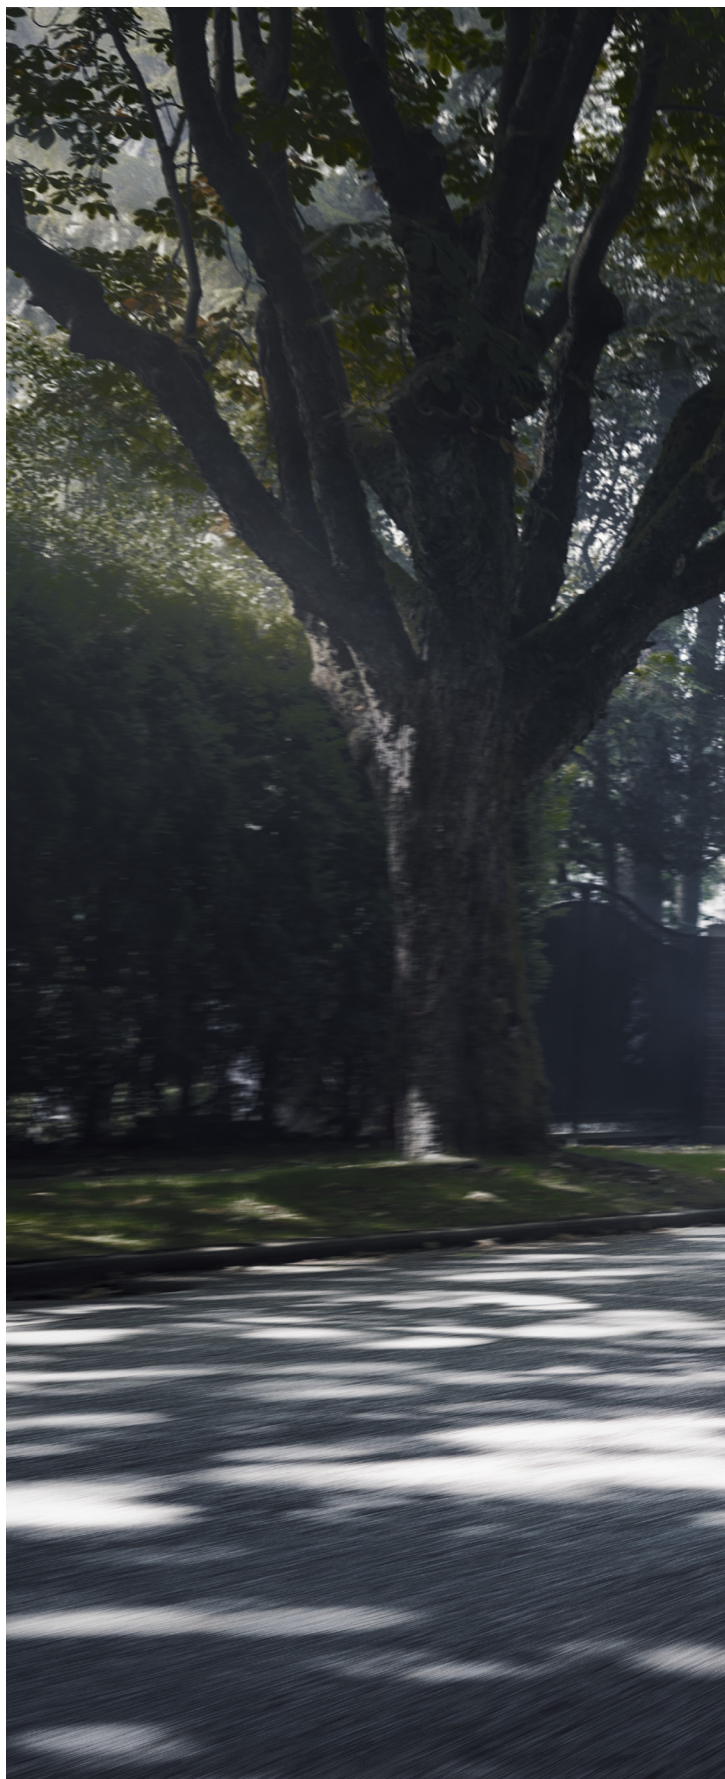

This innovative approach also makes driving fun. Choosing the 177kW D5 diesel powertrain, you can enjoy PowerPulse. At lower speeds and from standstill, it activates the turbocharger as soon as you press the accelerator to give an instant boost of acceleration. And if you go for our 246kW T6 petrol powertrain, a combined supercharger and turbo give you instant power at all revs. It's Volvo technologies like this that allow you to experience the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

All our powertrains are quiet and smooth to give you a relaxing journey. In our diesel engines, for example, the i-ART injection technology precisely meters exactly the right amount of fuel for each cylinder to make the engine run more smoothly while using less fuel. And to help minimise health-impairing emissions, the latest generation emission control with Selective Catalytic Reduction reduces emissions of nitrogen oxides (NO<sub>x</sub>) by up to 90%.

Our eight-speed Geartronic™ automatic gearbox makes the most of each engine's potential. Designed to minimise power loss and maximise performance, Geartronic™ will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

The powertrain can also adapt to the mood you're in. Select Comfort, Eco, Dynamic, Off Road or Individual mode with our drive mode control, and the powertrain, steering and optional active chassis with air suspension adapt instantly to your preferences.

Whichever powertrain you choose for your Volvo, you will enjoy the benefits of responsive power and uncompromised efficiency – simply a great drive.

Overseas model shown

## POWER WITHOUT COMPROMISE.

**Our high-performance powertrain**, the T8 Polestar Engineered with plug-in hybrid technology, turns the XC60 into a true performance car but, with its combination of turbocharged and supercharged petrol engine with an electric motor, also has the lowest CO<sub>2</sub> emissions of the range.

The combination of a high-performance four-cylinder petrol engine and a powerful electric motor offers the power and performance of a much larger engine, but use much less fuel. The 246kW petrol engine drives the front wheels and the 65kW electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car, you benefit from silent, emissions-free driving and an electric-only range ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses petrol and electric power for the best balance of power and efficiency while Pure mode mainly uses the

electric motor to allow zero-emission driving. Power mode combines the full output of the petrol engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favourite elements of each mode and create a mode that's tailored to your needs by selecting Individual mode.

Controlling this technology is intuitive and straightforward. A beautiful roller switch allows you to flick easily between modes. And if you've chosen our active chassis with air suspension your car automatically selects the best chassis settings to complement the drive mode, allowing you to enjoy the drive while your Volvo does the work.

Charging the battery is quick and easy. Drive the car and it charges the battery with a generator and regenerative braking. If you need to top it up, just plug it into the mains supply or at a charging station.

The T8 Twin Engine Polestar Engineered gives you the best of both worlds. Power without compromise.

The power of a turbo and supercharged petrol engine combined with a responsive electric motor makes the T8 Polestar Engineered a true performance SUV.

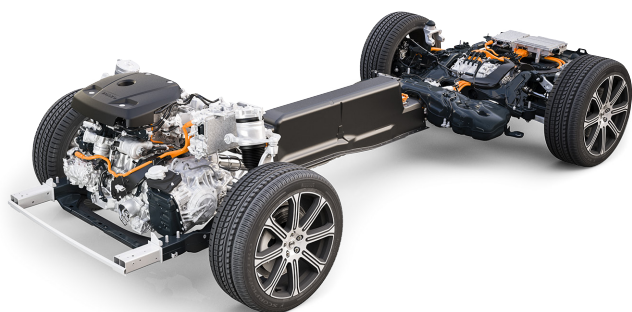

**T8 Twin Engine AWD | Polestar Engineered**

707 Crystal White Pearl | 21" 5-Y Spoke Black  
CNC Machined Alloy wheel

**The way we've** designed the T8 Polestar Engineered gives you more than just efficiency – you will notice how well balanced and responsive the car feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centreline, we've given the XC60 near-perfect weight distribution, a key element in creating agile handling. The battery's location helps create a low centre of gravity in the middle of the XC60 so the car is stable, sure-footed and comfortable. And because the battery is not in the boot, you get the same luggage capacity in the T8 Polestar Engineered AWD as you do in all other XC60 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

## DRIVE. DON'T COMPROMISE.

**We believe** a car can be both great to drive and comfortable, so we built the XC60 to strike that balance between control, precision and comfort. It's a car that rewards the way you drive with response and control. A car for long distances and memorable journeys.

Sophisticated double-wishbone front suspension and our innovative integral axle rear suspension work together to put you in control of every drive. You get a car that responds to your commands but doesn't sacrifice the comfort you need.

Optional full air suspension makes the XC60 even more capable, isolating the car's body from the road and soaking up uneven surfaces. By keeping the ride height constant the air suspension increases stability, making the XC60 easier and more predictable to control. The car body's height is adjusted according to its drive mode and speed. In Comfort or ECO drive mode, the body is lowered 10–20mm at higher speeds, using less fuel and making it quieter. In Dynamic mode the body is lowered constantly by 20mm in order to enhance handling and road holding.

Our AWD technology with Instant Traction™ gives you an edge by increasing driving stability and traction – on all road surfaces and in all weathers. As conditions change, wheels with the best grip get the most power to optimise your drive.

The drive mode selector with five different drive modes allows you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, in the case of the optional active chassis with full air suspension, even how it rides and handles. On rough roads, Off Road mode makes the XC60 easier to control at the low speeds needed to tackle bad surfaces, and engages Hill Descent Control to make descending slopes safer and simpler.

Optional air suspension on all four wheels gives the XC60 outstanding ride comfort – the air springs absorb up imperfections in the road – and make the car stable by keeping the ride height constant, regardless of the load. With the active chassis you can alter the way the car rides and handles to suit your mood or the road.

## VOLVO XC60 MOMENTUM. THE PREMIUM TOUCH.

The Volvo XC60 Momentum is a confident expression of dynamic style and liberating capacity, an SUV where progressive design and intuitive technology create a premium experience. Designed to be your dynamic Swedish SUV, the XC60 Momentum will meet your demands on style, comfort, safety and design.

The XC60 Momentum is twisted towards a distinctive, contemporary approach. Our signature design LED headlights and elegant wheels contribute to the car's premium appearance. And on the inside, you and your passengers can enjoy fine materials, elegant design and a host of comfort-enhancing amenities.

BUILD YOUR OWN VOLVO XC60 MOMENTUM AT  
**[VOLVOCARS.COM.AU](http://VOLVOCARS.COM.AU)**

The Volvo XC60 Momentum embodies the essence of confident Scandinavian design. The satin silk metal finish roof rails add to the car's premium look, while the LED headlights highlight the powerful presence of your Volvo SUV. Inside the XC60 Momentum, you and your passengers are surrounded by thoughtful comfort. The interior ambience is further enhanced by Iron Ore decor and aluminium tread plates.

Park Assist supports you when reversing and the chrome dual end pipes add a dynamic finish.

Optional Panoramic Sunroof

The integrated roof rails in satin silk metal finish add an extra touch of exclusivity to your XC60 Momentum.

The Volvo XC60 Momentum with signature design LED illumination headlights, black grille with bright chrome frame, integrated roof rails in satin silk metal finish, 19-inch alloy wheels (standard).

The standard 12.3-inch driver display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions.

Sensus Connect includes the large 9-inch centre display with touch screen, voice control, USB input, internet maps and our 220W High Performance audio system with 10 excellent speakers and Bluetooth® audio streaming.

## Inscription

### A HIGHER GRADE OF REFINEMENT.

We created the exclusive Volvo XC60 Inscription to meet your highest expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a stylish and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the XC60, while the meticulously crafted interior with leather accented seats gives you ample room for a relaxed driving experience. The Volvo XC60 Inscription epitomises our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the XC60 Inscription is in a class of its own – just like you.

The exclusive Volvo XC60 Inscription with its subtle jewellery touches and beautifully crafted wheels expresses the essence of contemporary Swedish luxury. On the inside, you are surrounded by genuine materials and fine craftsmanship. It's a sensory experience, further enhanced by the Comfort seats in Leather Accent, our Tailored dashboard and genuine Driftwood decor – all to make the Volvo XC60 Inscription your own personal statement of dynamic luxury.

Inscription front grille in elegant chrome finish and the signature headlights with LED illumination.

The lower door bright deco moulding with Inscription logotype.

The lower outer grilles with chrome trim and fog lamps complement the elegant front design of your XC60 Inscription.

Dual integrated end pipes and optional bright decor trim add to an elegant and powerful impression.

The XC60 Inscription with dynamic yet elegant 20-inch Inscription 8-spoke alloy wheels (standard) in distinctive Black Diamond Cut design.

The power-operated Comfort seats with perforated fine Nappa Leather Accent upholstery and front seat cushion extensions and the exclusive Driftwood genuine wood decor add to the sensory experience of contemporary luxury.

Our Tailored dashboard with contrasting stitching and genuine Driftwood decor enhance the luxurious interior ambience, while the intuitive 12.3-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action.

Select your preferred drive mode and steering characteristics with the scroll wheel in diamond patterned metal finish.

**R**DESIGN

## INSPIRED BY SPORT.

If you love to drive, the Volvo XC60 R-Design is for you. With athletic styling and precise control, R-Design captures the thrill of a sporty driving experience. A wealth of distinctive design details raises the dynamic soul of your Volvo SUV and gives it a sportier, more powerful road presence. It's a design expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the Volvo XC60 R-Design will deliver. You can feel it right from the moment you take your position in the sculpted R-Design driver seat – everything is there to inspire and support your driving.

The Volvo XC60 R-Design is characterised by distinctive styling and a powerful road presence. Sporty exterior R-Design details and the glossy black colour theme leave no doubts about the intention of your XC60 R-Design. On the inside, sculpted R-Design seats, Metal Mesh decor, Charcoal headlining and our optional Tailored dashboard give the cabin a sporty, cockpit-like feel. A finely-tuned sport chassis helps ensure you're in control without compromising ride comfort.

Enjoy the ultimate R-Design experience with our 21-inch Matt Black Diamond Cut aluminium wheels (standard) and the sport chassis with stiffer springs and shock absorbers dampers for sportier handling and less roll when cornering.

R-Design door mirror caps in dynamic glossy black and stylish glossy black rails and window trim highlight the sporty look of your XC60 R-Design.

Our headlights with LED illumination, the glossy black R-Design grill with frame in Silk Metal finish and unique glossy black lower outer grilles add to the sporty character of your XC60 R-Design.

Dual integrated end pipes for a distinctive road presence.

The Metal Mesh decor adds to the dynamic, hi-tech ambience inside your XC60 R-Design.

The R-Design sport steering wheel in Leather Accent with gear-shift paddles, the Tailored dashboard and our 12.3-inch driver display with four graphic modes.

The R-Design interior featuring the R-Design sport steering wheel, R-Design gear shifter and gaiter in Fina Nappa Leather Accent with contrasting stitching. Contour seats with exclusive/Perforated Fine Nappa Leather Accent upholstery, Metal Mesh decor and our Tailored dashboard with contrasting stitching.

## Polestar Engineered

### PURE PERFORMANCE.

We created the Volvo XC60 T8 Polestar Engineered with one single-minded ambition – to give you the most precise and involving driving experience, period.

To achieve this, we joined forces with the engineers at Polestar – our electric performance car brand. Refinement, human centric innovation and world class safety combined with Polestar's applied performance expertise enable what we call advanced driving dynamics.

This means we've fine-tuned and engineered each component to act as one for your driving enjoyment. Everything, from the powerful T8 Twin Engine AWD plug-in hybrid powertrain to the exclusive Polestar Engineered Öhlins chassis and the high-performance Polestar Engineered Akebono brakes, work together to optimise performance, handling and control. Combined with lightweight, Polestar Engineered Forged Wheels and distinctive styling, this will provide you with a high-precision driving experience that's simply electrifying.

The Volvo XC60 T8 Polestar Engineered takes the driving precision and performance of your dynamic Swedish SUV to a higher level. The 246kw + 65kw T8 Twin Engine AWD powertrain with plug-in hybrid technology and all-wheel drive gives you uncompromised power and efficiency. Together with the engineers at Polestar, we have upgraded the highly capable XC60 chassis with stiffer springs by Polestar and high-end suspension technology by Öhlins – the renowned Swedish manufacturer of shock absorbers for performance and racing cars and motorcycles. This gives you precise and consistent handling characteristics together with maximum road contact in all road conditions, while still providing supple ride comfort. And the Polestar Engineered Akebono brakes maximises braking performance in all conditions.

The Polestar Engineered Akebono brakes feature 6-piston brake calipers and large ventilated discs at the front. They're designed to maximise your control and braking performance with a minimum of fading even during hard driving.

We created the Polestar Engineered Öhlins Chassis to give you the perfect balance of agility, control and comfort. The advanced Öhlins shock absorbers work together with the Polestar Engineered front and rear springs that stiffen up the chassis and lower the ride height. This gives a somewhat firmer and more composed ride with less roll and more grip when cornering. And for stable and predictable handling, the technical layout of the T8 Twin Engine AWD powertrain adds to even weight distribution and a low centre of gravity.

The advanced, hand-made Öhlins shock absorbers deliver the perfect mix of agility and comfort. The unique Dual Flow Valve technology means the shock absorber can react more quickly, allowing the wheel and tyre to regain road contact instantly after passing a bump or a pot hole without losing traction. You can enjoy sporty handling and great control without compromising comfort.

The front suspension is further stabilised by a Polestar Engineered strut bar. This contributes to even more precise, responsive steering characteristics at all speeds and more controlled handling through the curves.

The Volvo XC60 T8 Polestar Engineered in Crystal White Pearl with Polestar Engineered 21-inch 5-Y spoke Black forged wheels and Polestar Engineered Exhaust pipes in stainless steel with black chrome finish.

The dynamic Charcoal interior of the XC60 T8 Polestar Engineered with Contour seats in Fine Nappa Leather Accent/Open Grid textile with adjustable seat cushion extensions and our optional Tailored dashboard with contrasting stitching.

Safety belts coloured in gold, a subtle nudge to the unique chassis details of your XC60 T8 Polestar Engineered.

Adding to the car's excellent handling as well as its distinctive look, the Polestar Engineered 21-inch 5-Y spoke Black forged wheels are in a unique light-weight design.

## EXTERIOR COLOURS.

Our wide range of exterior colours allows you to create the Volvo XC60 that best reflects your style and preferences. Available in

different variations, each colour imbues your Volvo SUV with a sense of luxury and presence.

## INTERIORS.

The interior of the Volvo XC60 is crafted with you at the centre of attention. Every detail, every line, every shape is testimony to our designers' pursuit to create a space in which you feel relaxed and in complete control. Choose between two seat variants: the lavish Comfort seats or the sportier Contour seats. The interior is available in many colour, upholstery and decor trim combinations – including Blond or Charcoal headlining – to suit your preferences.

## WHEELS.

The wheels you choose have a big impact on the look and character of your SUV. You have a wide selection of custom-designed wheels to choose from, all developed and tested by Volvo Cars to fit your XC60 perfectly. Rugged, elegant or sporty, in stylish silver finish or distinctive Diamond Cut design, in dimensions up to 21 inches – the choice is yours.

## ACCESSORIES. MAKE IT YOURS.

Add your own style to the XC60 with Volvo styling accessories; the perfect addition to your new SUV. Designed to perfectly complement the lines of the XC60, the exterior styling kit allows you to create an exclusive, individual look – no matter which trim level you've chosen.

At the front, a stainless steel skidplate wraps around the leading edge of the lower bumper, adding definition. At the rear a matching stainless steel skidplate and integrated dual split tail pipes give the car a powerful presence. The stainless steel

bumper protector looks great and stops the paintwork from being damaged during loading.

The 22-inch wheel designs combine delicate, technical forms with a high-tech look. Both the five double-spoke and 10 open-spoke wheels are finished in black with a diamond cut finish, a technique that provides a striking contrast between the dark recesses and bright faces. Body-coloured wheelarch extensions cover the wheels' extra width and help to create a more powerful visual statement.

**T6 AWD | R-Design**  
707 Crystal White Pearl | 22" 5-double spoke Matt Black Diamond Cut alloy wheels

Coupled with R-Design trim, the exterior styling kit accentuates the car's athletic, dynamic design. With just the right amount of stainless steel detailing to contrast with the body colour and complement the R-Design silver mirror covers, it's a great way to add your own touch to the XC60.

## SWEDISH LUXURY, YOUR WAY.

The Volvo XC60 Inscription is about elegant, Swedish luxury. To make your SUV an even stronger and more personal statement, you can add our exterior styling kit. Front and rear skidplates

in stainless steel combined with the integrated dual split tail pipes and body-coloured wheelarch extensions enhance your car's exclusive and powerful presence.

## FOR ALL OF LIFE'S JOURNEYS.

Create a Volvo XC60 that's perfect for your life, with Volvo accessories that are designed around you and your SUV.

Our sleek iPad® holder allows rear-seat passengers to watch, read or play during the journey. And with our Media Server, they can enjoy stored entertaining content via their mobile devices.

And adding a steel grille, you create a sturdy barrier between the load and passenger compartment.

iPad® holder,  
rear seat.

Protective steel grille.

Load compartment mat, plastic.

Load carriers.

## WORKS HARDER WHEN YOU NEED IT.

To make your Volvo SUV work even harder for you, just add our load accessories. Designed to look good and work flawlessly, they will make life less complicated and help you bring the gear you need without compromising comfort, style or safety. Our lightweight, specially-designed roof box is easy to fit onto the load carriers, adding 350 litres of carrying capacity. And to really extend the load capacity of your XC60, the towbar gives you the ability to tow and is easy to mount and remove.

Mud flaps, front and rear.

Bumper cover.

Roof box, designed by Volvo Cars.

Fixed Towbar.

Bicycle holder.

Illuminated tailgate scuff plate.

## MAKE YOUR POWERFUL CHOICE.

We created the new Volvo XC60 with one single purpose: to provide you with an SUV that perfectly fits you and your lifestyle. It's a car that meets your expectations of a dynamic drive with refined comfort and confident design – built with care for people and the world we share. And designed to be intuitive to use and to make life easier, the XC60 is a pleasure to live with every day.

At the heart of your Volvo XC60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest engine technology that gives you instant response and a comfortable

ride. Fuel consumption and CO<sub>2</sub> emissions are kept low, and our powertrains comply with strict exhaust emission requirements.

Our powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed Geartronic™ automatic gearbox. The responsive AWD all-wheel drive technology gives you an edge by increasing driving stability and traction – on all road surfaces and in all weathers. And for the ultimate combination of performance and efficiency, there's the option of our T8 Twin Engine Polestar Engineered with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

### T8 Twin Engine Polestar Engineered

Our T8 Twin Engine Polestar Engineered with plug-in hybrid technology delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this 246kw+65kw/6000rpm+7000rpm powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

### T6 AWD

This high-performance 246kw/6000rpm petrol powertrain provides excellent driving dynamics without compromising on efficiency. Combined super-charger/turbo technology, responsive all-wheel drive and our smooth 8-speed Geartronic™ put you in control of your drive.

### T5 AWD

The 187kw/5500rpm T5 AWD petrol powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed Geartronic™ automatic gearbox and all-wheel drive.

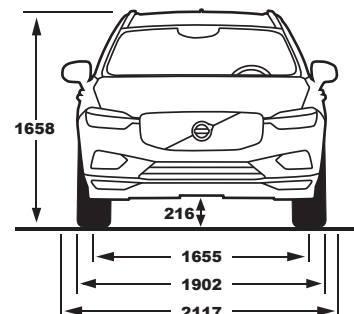

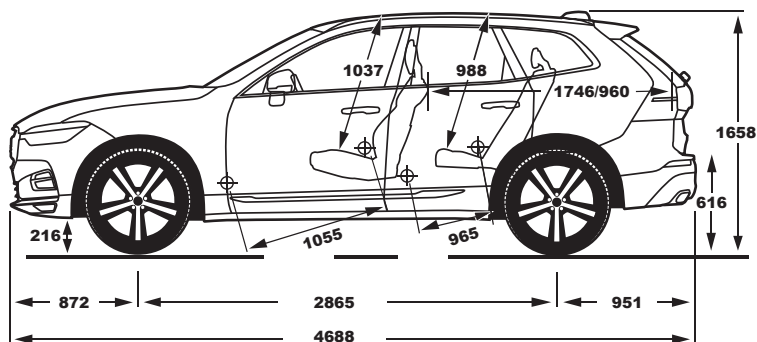

### D5 AWD

Our most powerful 177kW/4000rpm diesel powertrain D5 AWD allows you to experience performance and refinement without compromises. Twin-turbo engine technology, our 8-speed Geartronic™ automatic and all-wheel drive add to instant control.

### D4 AWD

Our sophisticated 140kW/4250rpm D4 diesel powertrain allows you to enjoy more while using less. Available with our dynamic all-wheel drive and 8-speed Geartronic™ automatic or 6-speed manual gearbox, the D4 is designed to give you the most efficient and confident driving experience.

**NB.** The engine programme may vary from country to country. Please talk to your Volvo Car dealer for the latest information.
